

Quick Quote is an online quotation facility which allows Contracting Authorities to obtain competitive quotes electronically for low value requirements. Details of the Quick Quote are created on the portal and distributed to a select list of suppliers. Quick quotes are only distributed to the selected suppliers and are not made public on the portal.

If invited to quote you must complete the required details and submit your quotation using the secure tender Postbox (for more information on this please see the Tender Postbox guide)

How do I get selected for a Quick Quote?

There are various ways in which authorities can search for suppliers to select to quote, the main one being by commodity category (these are the categories you choose when setting up an alert profile). Please ensure that you have set up the appropriate profile for your company. You can do this from the left hand menu by selecting: Suppliers>Alerts>Product Categories.

How do I respond to a Quick Quote?

If you are selected to quote you will receive an e-mail with the details of the requirement attached. Within the e-mail you will be asked to click a link to accept or decline the offer to quote.

After reading the requirements for the quote in the attachments please click the link in the e-mail and select whether you want to accept or decline the quote by clicking the relevant button. The accept/decline function is a courtesy to the awarding authority to let them know how many responses they are likely to receive. Should you decline the invitation to respond and later change your mind you are still able to submit a response.
